(An Exploration Stage Company)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

For the six months ended June 30, 2020

(Expressed in Canadian Dollars)

1. CORPORATE INFORMATION

Rackla Metals Inc. (the “Company”) is pursuing opportunities related to exploration of mineral resource properties. The Company was incorporated in the Province of British Columbia on September 20, 2011, and its common shares are listed on the TSX Venture Exchange (“TSX-V”) under the symbol RAK.

The address of the Company’s corporate office and principal place of business is Suite 650, 200 Burrard Street, Vancouver, BC, Canada V6C 3L6.

2. BASIS OF PREPARATION

These condensed interim financial statements are prepared in accordance with International Accounting Standard (“IAS”) 34 *Interim Financial Reporting* under International Financial Reporting Standards (“IFRS”) issued by the International Accounting Standards Board (“IASB”). These condensed interim financial statements follow the same accounting policies and methods of application as the most recent annual financial statements of the Company. These condensed interim financial statements do not contain all of the information required for full annual financial statements. Accordingly, these condensed interim financial statements should be read in conjunction with the Company’s most recent annual financial statements, which were prepared in accordance with IFRS as issued by the IASB.

Basis of Measurement

These condensed interim financial statements have been prepared on the historical cost basis, except for certain financial instruments carried at fair value. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

The presentation and functional currency of the Company is the Canadian dollar.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgment in applying the Company’s accounting policies. The areas involving a higher degree of judgment of complexity, or areas where assumptions and estimates are significant to the condensed interim financial statements are disclosed in Note 3.

Nature of Operations and Ability to Continue as a Going Concern

These condensed interim financial statements have been presented on the basis that the Company will continue as a going concern, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. Realization values may be substantially different from the carrying values shown and these condensed interim financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At June 30, 2020, the Company had not yet achieved profitable operations, has accumulated losses of \$8,181,049 (December 31, 2019: \$8,115,102) since inception, and is expected to incur further losses in the development of its business, all of which raises significant doubt about its ability to continue as a going concern. The Company will periodically have to raise funds to continue operations; although it has been successful in doing so in the past, there is no assurance it will be able to do so in the future. If the Company is unable to obtain additional financing, management may be required to curtail certain discretionary expenses.

These condensed interim financial statements do not give effect to adjustments to the recoverability of assets and satisfaction of liabilities that would be necessary should the Company be unable to continue as a going concern. Such adjustments could be material.

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

For the six months ended June 30, 2020

(Expressed in Canadian Dollars)

2. BASIS OF PREPARATION (cont'd)

Nature of Operations and Ability to Continue as a Going Concern (cont'd)

Since March 2020, the outbreak of the novel strain of coronavirus, specifically identified as "COVID-19", has continued to result in governments worldwide enacting emergency measures to combat the spread of the virus. These measures, which include the implementation of travel bans, self-imposed quarantine periods and physical distancing, have caused material disruption to business globally resulting in an economic slowdown. Global equity markets have experienced significant volatility and weakness. The duration and impact of the COVID-19 outbreak is unknown at this time and it is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company in future periods.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in profit or loss in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

The key areas of judgment applied in the preparation of the condensed interim financial statements that could result in a material adjustment to the carrying amounts of assets and liabilities are as follows:

- i) The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company.
- ii) The Company has not recognized a deferred tax asset as management believes that it is not probable that taxable profit will be available against which a deductible temporary difference can be utilized.
- iii) The assessment of the Company's ability to continue as a going concern and to raise sufficient funds to pay for its operating expenditures, meet its liabilities for the current year, and to fund planned contractual exploration programs, involves significant judgement based on historical experiences and other factors including expectation of future events that are believed to be reasonable under the circumstances.

The key estimates applied in the preparation of the financial statements that could result in a material adjustment to the carrying amounts of assets and liabilities are as follows:

- i) In estimating the fair value of share-based payments, using the Black-Scholes option pricing model, management is required to make certain assumptions and estimates. Changes in assumptions used to estimate fair value could result in materially different results.

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

For the six months ended June 30, 2020

(Expressed in Canadian Dollars)

4. STANDARDS, AMENDMENTS AND INTERPRETATIONS NOT YET EFFECTIVE

The Company will be required to adopt the following standard and amendments issued by the IASB as described below.

IFRS 17, *Insurance Contracts*

IFRS 17 is a new standard that requires insurance liabilities to be measured at a current fulfillment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. IFRS 17 supersedes IFRS 4, *Insurance Contracts*, and related interpretations.

This standard will be effective for the Company's annual period beginning January 1, 2021. The Company has assessed that the impact of IFRS 17 on its financial statements would not be significant.

5. EQUITY INVESTMENTS

As of June 30, 2020, equity investments consisted of 75,000 common shares of Damara Gold Corp. ("Damara"), a public company, and 200,000 common shares of Voyager Gold Corp. ("Voyager"), a private company with a common director. The private company shares were initially measured at fair value and subsequently written down to \$1.

As at June 30, 2020, the carrying amount for the equity investments was \$2,626 (December 31, 2019: \$2,251).

During the period ended June 30, 2020, there was an increase in fair value of the Damara shares by \$375 (2019: \$Nil). This amount was recorded as a fair value loss in other comprehensive loss.

	Damara	Voyager	Total

For the six months ended June 30, 2020

(Expressed in Canadian Dollars)

7. EXPLORATION AND EVALUATION ASSETS

As at June 30, 2020, the Company has capitalized \$1 (December 31, 2019: \$1) as acquisition cost on its Rivier mineral property interest.

Rivier Property – Yukon Territory

The Rivier Property consists of 116 claims located in the Watson Lake Mining District which are 100% owned by the Company. 100 of the claims were previously held pursuant to an option agreement (the “Initial Option”) with the property owner (the “Rivier Owner”) until the Initial Option was terminated by the Company during the 2017 fiscal year.

Pursuant to an agreement entered into in April 2018, as amended in April 2020 (the “Rivier and Sixty Mile Agreement”) with the Rivier Owner, the Company acquired 100% ownership of the 100 claims previously subject to the Initial Option, in consideration for transferring to the Rivier Owner 63 of the Company’s Sixty Mile claims, agreeing to make annual advance royalty payments of \$10,000 to the Rivier Owner commencing in April 2021 (for as long as the Company owns the Rivier Property), and granting to the Rivier Owner a 2% net smelter return royalty.

8. EXPLORATION EXPENDITURES

During the six-month period ended June 30, 2020, the Company incurred \$Nil (2019: \$61,627) on general maintenance and property investigation costs.

9. SHARE CAPITAL AND RESERVES

(a) Common Shares

The Company is authorized to issue an unlimited number of common shares without par value.

During six-month period ended June 30, 2020, the Company closed a placement of 5,000,000 units at \$0.10 per unit for gross proceeds of \$500,000. Each unit consists of one common share and one full share purchase warrant entitling the holder to purchase an additional common share exercisable for one year at a price of \$0.15. The Company paid \$250 cash as finders’ fees in connection with the financing. Other share issuance costs associated with this financing totalled \$3,750.

(b) Share Purchase Warrants

The following is a summary of changes in share purchase warrants from December 1, 2019 to June 30, 2020:

	Number of warrants	Weighted average exercise price
Balance, December 31, 2018 and 2019	-	-
Issued	5,000,000	\$0.15
Balance, June 30, 2020	5,000,000	\$0.15

As at June 30, 2020, the following share purchase warrants were outstanding:

Expiry date	Number of warrants	Exercise price
February 11, 2021	5,000,000	\$0.15

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

For the six months ended June 30, 2020

(Expressed in Canadian Dollars)

10. SHARE-BASED PAYMENTS

Option Plan Details

The Company has in place a stock option plan (the "Plan"), which allows the Board of Directors to grant incentive stock options to the Company's officers, directors, employees, and consultants. The exercise price of stock options granted is determined by the Board of Directors at the time of the grant in accordance with the terms of the Plan and the policies of the TSX-V. Options vest on the date of granting unless stated otherwise. Options granted to investor relations consultants vest in accordance with TSX-V regulation. The options are for a maximum term of ten years.

Share Purchase Options

The following is a summary of changes in options for the period ended June 30, 2020:

Expiry date	Exercise price	Opening balance	During the period			Closing balance	Vested and exercisable
			Granted	Exercised	Expired / forfeited		
Jul 19, 2022	\$0.75	146,000	-	-	(5,000)	141,000	141,000
May 2, 2029	\$0.10	470,000	-	-	(10,000)	460,000	460,000
May 27, 2030	\$0.14	-	25,000	-	-	25,000	25,000
		616,000	25,000	-	(15,000)	626,000	626,000
Weighted average exercise price		\$0.25	\$0.14	-	\$0.32	\$0.25	\$0.25

Fair Value of Options Issued During the Period

The weighted average fair value at grant date of options granted during the period ended June 30, 2020 was \$0.13 per option (2019: \$0.08 per option).

The weighted average remaining contractual life of the options outstanding at June 30, 2020 is 7.36 years (December 31, 2019: 7.73).

Options Issued to Employees

The fair value at grant date is determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date, the expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

Options Issued to Non-Employees

Options issued to non-employees are measured based on the fair value of the goods or services received, at the date of receiving those goods or services. If the fair value of the goods or services received cannot be estimated reliably, the options are measured by determining the fair value of the options granted using the Black-Scholes option pricing model.

The model inputs for options granted during the period ended June 30, 2020 included:

Share price at grant date	Exercise price	Risk-free interest rate	Expected life	Volatility factor	Dividend yield
\$0.14	\$0.14	0.59%	10 years	113%	0%

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

For the six months ended June 30, 2020

(Expressed in Canadian Dollars)

10. SHARE-BASED PAYMENTS (cont'd)

Fair Value of Options Issued During the Period (cont'd)

The expected volatility is based on the historical volatility (based on the remaining life of the options), adjusted for any expected changes to future volatility due to publicly available information. The risk-free rate of return is the yield on a zero-coupon Canadian Treasury Bill of a term consistent with the assumed option life. The expected average option term is the average expected period to exercise, based on the historical activity patterns for each individually vesting tranche.

Option pricing models require the input of highly subjective assumptions including the expected price volatility. Changes in these assumptions can materially affect the fair value estimate.

Expenses Arising from Share-based Payments Transactions

Total expenses arising from the share-based payment transactions related to the granting of stock options and recognized as part of share-based payments expense during the period ended June 30, 2020 was \$3,253 (2019: \$49,033).

As of June 30, 2020, there was no unrecognized costs related to share-based payment awards not yet exercisable.

11. RELATED PARTY TRANSACTIONS

The Company had transactions during the periods ended June 30, 2020 and 2019 with related parties consisting of directors, officers and the following companies with common directors:

<u>Related party</u>	<u>Nature of transactions</u>
Gold Group Management Inc. ("Gold Group")	Shared office and administrative related charges
Radius Gold Inc. ("Radius")	Geological services
Mill Street Services Ltd. ("Mill Street")	Management services

Balances and transactions with related parties not disclosed elsewhere in these condensed interim financial statements are as follows:

(a) During the periods ended June 30, 2020 and 2019, the Company reimbursed Gold Group for the following costs:

	<u>Three months ended June 30,</u>		<u>Six months ended June 30,</u>	
	<u>2020</u>	<u>2019</u>	<u>2020</u>	<u>2019</u>
General and administrative expenses:				
Office and administration	\$ 5,524	\$ 6,400	\$ 13,270	\$ 12,491
Salaries and benefits	5,898	7,156	16,626	17,555

Exploration expenditures	\$ -	\$ 13,085	\$ -	\$ 13,085

Gold Group is reimbursed by the Company for certain shared costs and other business-related expenses paid by Gold Group on behalf of the Company. Salaries and benefits costs paid to Gold Group include those for the Chief Financial Officer and Corporate Secretary.

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

For the six months ended June 30, 2020

(Expressed in Canadian Dollars)

11. RELATED PARTY TRANSACTIONS (cont'd)

- (b) Deposits as of June 30, 2020 consist of \$61,000 (December 31, 2019: \$61,000) paid to Gold Group and are related to the shared office and administrative services agreement with Gold Group. Upon termination of the agreement, the deposits, less any outstanding amounts owing to Gold Group, are to be refunded to the Company.
- (c) Amounts due to related parties as of June 30, 2020 consist of \$12,384 (December 31, 2019: \$26,206) due to Gold Group, \$376 (December 31, 2019: \$183,750) owed to Mill Street, a company controlled by the Chief Executive Officer of the Company for management fees, \$Nil (December 31, 2019: \$50,626) due to the President of the Company for geological fees and expense reimbursement, and \$Nil (December 31, 2019: \$7,445) to Radius. The balance due to Gold Group is collateralized by a deposit and the balance due to Mill Street is unsecured and due on demand. The amounts due do not bear interest.

Key management compensation

Key management personnel are persons responsible for planning, directing, and controlling the activities of an entity, and include certain directors and officers. Key management compensation comprises:

	Three months ended June 30,		Six months ended June 30,	
	2020	2019	2020	2019
Geological fees recorded as exploration expenditures	\$ -	\$ 9,500	\$ -	\$ 35,900
Management fees	8,750	10,500	19,250	21,000
Salaries and benefits	1,650	1,375	4,308	5,500
Value of stock option grants recorded as share-based compensation	-	12,519	-	12,519
	\$ 10,400	\$ 33,894	\$ 23,558	\$ 74,919

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company is exposed to the following financial risks:

- Market Risk
- Credit Risk
- Liquidity Risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these condensed interim financial statements.

General Objectives, Policies and Processes

The Board of Directors has overall responsibility for the determination of the Company's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and policies to the Company's management. The Board of Directors receives periodic reports through which it reviews the effectiveness of the processes put in place and the appropriateness of the objectives and policies it sets.

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)

The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility. Further details regarding these policies are set out below.

(a) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate due to changes in market prices. Market prices affecting the Company are comprised of the following types of risk: interest rate risk and equity price risk. The Company is not exposed to the risk related to the fluctuation of foreign currency rates.

Interest Rate Risk

Interest rate risk is the risk that future cash flows will fluctuate as a result of changes in market interest rates. The Company does not have any borrowings. Interest rate risk is limited to potential decreases on the interest rate offered on cash held with chartered Canadian financial institutions. The Company considers this risk to not be significant.

Equity Price Risk

Equity price risk is the uncertainty associated with the valuation of assets arising from changes in equity markets. The Company's equity investments are exposed to equity price risk due to the potentially volatile and speculative nature of the businesses in which the equity investments are held. The common shares held in Damara and Voyager are monitored by management with decisions on sale taken at Board level. A 10% change in fair value of the shares would result in a \$263 increase or decrease in comprehensive loss.

(b) Credit Risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's credit risk is primarily attributable to its cash and equity investments. The Company limits exposure to credit risk by maintaining its cash with chartered Canadian financial institutions. The Company does not have cash or equity investments that are invested in asset-based commercial paper.

(c) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity risk is to provide reasonable assurance that it will have sufficient funds to meet liabilities when due. The Company manages its liquidity risk by forecasting cash flows required by operations and anticipated investing and financing activities. At June 30, 2020, the Company had cash of \$169,962 (December 31, 2019: \$13,979) available to apply against short-term business requirements and current liabilities of \$32,814 (December 31, 2019: \$308,347). All of the Company's financial liabilities have contractual maturities of less than 45 days and are subject to normal trade terms.

Determination of Fair value

Fair values have been determined for measurement and/or disclosure purposes based on the following methods. All financial instruments at June 30, 2020 are carried at amortized cost, apart from the equity investment in a public company with shares in an active market of \$2,625 (December 31, 2019: \$2,250), which is carried at fair value. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

RACKLA METALS INC.

(An Exploration Stage Company)

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS (UNAUDITED)

For the six months ended June 30, 2020

(Expressed in Canadian Dollars)

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd)

The statement of financial position carrying amounts for cash, accounts payables and accrued liabilities, and due to related parties approximates fair value due to their short-term nature. Due to the use of subjective judgments and uncertainties in the determination of fair values these values should not be interpreted as being realizable in an immediate settlement of the financial instruments.

The Company has made the following designations of its financial instruments: cash measured at FVTPL, equity investments measured at FVTOCI, and receivables, accounts payable and accrued liabilities and due to related parties measured at amortized cost.

Fair Value Hierarchy

Financial instruments that are measured subsequent to initial recognition at fair value are grouped in Levels 1 to 3 based on the degree to which the fair value is observable:

Level 1	Unadjusted quoted prices in active markets for identical assets or liabilities;
Level 2	Inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e., as prices) or indirectly (i.e., derived from prices); and
Level 3	Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The equity investment in Damara is based on a quoted price and is therefore considered to be Level 1.

The equity investment in Voyager was recorded at fair value when it was received and assessed for impairment as at June 30, 2020 and December 31, 2019. This investment is considered to be Level 3.

13. CAPITAL MANAGEMENT

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to advance its mineral properties. The Company defines its capital as all components of equity. In order to facilitate the management of its capital requirements, the Company prepares periodic budgets that are updated as necessary. The Company manages its capital structure and makes adjustments to it to effectively support the acquisition and exploration of mineral properties. The properties in which the Company currently has an interest are in the exploration stage; as such, the Company is dependent on external financing to fund its activities. In order to carry out the planned exploration and pay for general administrative costs, the Company will spend its existing capital resources and aim to raise additional amounts as needed. The Company will continue to assess new properties and seek to acquire an interest in additional properties if it feels there is sufficient geologic or economic potential and if it has adequate financial resources to do so.

Management reviews its capital management approach on an ongoing basis and believes that this approach, given the relative size of the Company, is reasonable. There have been no changes in the Company's approach to capital management during the period. As at June 30, 2020, the Company is not subject to any externally imposed capital requirements. The Company expects its current capital resources to be sufficient to cover its corporate operating costs but not potential future mineral property acquisitions or exploration expenditures through the next twelve months. As such, the Company will seek to raise additional capital and believes it will be able to do so, but recognizes the uncertainty attached thereto.

14. SEGMENTED REPORTING

The Company is organized into business units based on mineral properties and has one reportable operating segment, being that of acquisition and exploration and evaluation activities. All of the Company's long-term assets and operations are in Canada.

(the "Company")

INTERIM MANAGEMENT'S DISCUSSION AND ANALYSIS – QUARTERLY HIGHLIGHTS

For the Six Months Ended June 30, 2020

General

This interim Management's Discussion and Analysis ("Interim MD&A") supplements, but does not form part of, the unaudited condensed interim financial statements of the Company for the six months ended June 30, 2020. The following information, prepared as of August 7, 2020, should be read in conjunction with the Company's unaudited condensed interim financial statements for six months ended June 30, 2020 and the related notes contained therein. The Company reports its financial position, results of operations and cash flows in accordance with International Financial Reporting Standards ("IFRS"). In addition, the following should be read in conjunction with the financial statements of the Company for the year ended December 31, 2019 and the related MD&A. All amounts are expressed in Canadian dollars unless otherwise indicated. The June 30, 2020 financial statements have not been reviewed by the Company's auditors.

Additional information relevant to the Company's activities can be found on SEDAR at (www.sedar.com).

Forward-looking Information

This Interim MD&A contains certain statements which constitute forward-looking information within the meaning of applicable Canadian securities legislation ("Forward-looking Statements"). All statements included herein, other than statements of historical fact, are Forward-looking Statements and are subject to a variety of known and unknown risks and uncertainties which could cause actual events or results to differ materially from those reflected in the Forward-looking Statements. The Forward-looking Statements in this Interim MD&A include, without limitation, statements relating to the Company's plans for exploration of its properties; the sufficiency of the Company's cash position; and its ability to raise equity capital or access debt facilities. Often, but not always, these Forward-looking Statements can be identified by the use of words such as "anticipates", "believes", "plans", "estimates", "expects", "forecasts", "scheduled", "targets", "possible", "strategy", "potential", "intends", "advance", "goal", "objective", "projects", "budget", "calculates" or statements that events, "will", "may", "could" or "should" occur or be achieved and similar expressions, including negative variations.

Forward-looking Statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company to be materially different from any results, performance or achievements expressed or implied by the Forward-looking Statements. Such uncertainties and factors include, among others:

- the Company's seeking new prospective mineral properties for acquisition;
- risks associated with mineral exploration;
- fluctuations in commodity prices, foreign exchange rates, and interest rates;
- credit and liquidity risks;

- changes in national and local government legislation, taxation, controls, regulations and political or economic developments in countries in which the Company does or may carry on business;
- reliance on key personnel;
- property title matters and local community relationships;
- risks associated with potential legal claims generally or with respect to environmental matters;
- dilution from further equity financing;
- competition;
- uncertainties relating to general economic conditions; and
- risks relating to a global pandemic, including the coronavirus COVID-19, which unless contained could cause a slowdown in global economic growth and impact the Company's business, operations, financial condition and share price.

as well as those factors referred to in the "Risks and Uncertainties" section in this Interim MD&A.

Forward-looking Statements contained in this Interim MD&A are based on the assumptions, beliefs, expectations and opinions of management, including but not limited to:

- the Company will acquire an interest in a prospective mineral property;
- all required third party contractual, regulatory and governmental approvals will be obtained for the exploration and development of the Company's properties;
- there being no significant disruptions affecting operations, whether relating to labor, supply, power, damage to equipment or other matters;
- exploration activities proceeding on a basis consistent with the Company's current expectations;
- expected trends and specific assumptions regarding commodity prices and currency exchange rates; and
- prices for and availability of fuel, electricity, equipment and other key supplies remaining consistent with current levels.

These Forward-looking Statements are made as of the date hereof and the Company disclaims any obligation to update any Forward-looking Statements, whether as a result of new information, future events or results or otherwise, except as required by law. There can be no assurance that Forward-looking Statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, investors should not place undue reliance on Forward-looking Statements.

Business of the Company

The Company is a Vancouver-based mineral exploration company engaged in the acquisition and exploration of precious and base metals properties. Management has been actively seeking new prospective projects for the Company, as well as possible joint ventures or other transactions for the Company's Rivier Property described below.

On February 12, 2020, the Company closed a private placement financing by issuing 5,000,000 units at \$0.10 per unit, raising proceeds of \$500,000. Each unit consisted of one common share and one warrant entitling the holder to purchase one additional common share of the Company at \$0.15 for one year from closing. The proceeds of the placement are being used for general working capital purposes.

Due to restrictions on travel and for the safety of our employees because of the COVID-19 pandemic, the Company has curtailed certain operations for the time being. We will resume these operations when it is safe and cost effective to do so; meanwhile we will preserve the cash position of the Company.

Rivier Property

The Company has held a 100% interest in 16 Rivier claims for some years, and until late 2017, had an option to acquire an additional 100 Rivier claims. Pursuant to an agreement entered into in April 2018, as amended in April 2020 (the "Rivier and Sixty Mile Agreement") with the owner ("Rivier Owner") of the 100 Rivier claims, to acquire such claims in consideration for transferring to the Rivier Owner 63 of the Company's Sixty Mile claims, agreeing to make annual advance royalty payments of \$10,000 to the Rivier Owner commencing in April 2021 (for as long as the Company owns the Rivier Property), and granting to the Rivier Owner a 2% net smelter return royalty. As a result of

the Rivier and Sixty Mile Agreement, the Rivier Property currently consists of 116 claims owned by the Company and which are in good standing until 2024.

The Rivier claims are located 90 kilometres southeast of Ross River, Yukon and are targets for lode gold mineralization of the Motherlode type. Geochemical results from soil sample programs identified three zones of anomalous gold values adjacent to a structurally controlled ultramafic body indicating the potential for significant gold mineralization. Each of the three zones includes at least one soil sample that contained over 2 grams per tonne gold.

Qualified Person: Bruce Smith, M.Sc., M.Eng., a member of the Australian Institute of Geoscientists, is the Company's Qualified Person as defined by National Instrument 43-101, and is responsible for the accuracy of the technical information in this Interim MD&A.

Quarterly Information

The following table provides quarterly information for the eight fiscal quarters ended June 30, 2020:

Quarter Ended	Jun. 30, 2020 (\$)	Mar. 31, 2020 (\$)	Dec. 31, 2019 (\$)	Sep. 30, 2019 (\$)	Jun. 30, 2019 (\$)	Mar. 31, 2019 (\$)	Dec. 31, 2018 (\$)	Sep. 30, 2018 (\$)
Exploration expenditures	-	-	13,310	-	29,689	31,938	7,788	-
General and administrative expenses	27,131	42,472	48,733	34,186	76,609	38,582	45,837	24,730
Net loss	(27,131)	(42,472)	(62,043)	(34,186)	(106,298)	(70,520)	(53,625)	(28,791)
Basic and diluted loss per share	(0.00)	(0.00)	(0.00)	(0.00)	(0.01)	(0.00)	(0.01)	(0.00)

Exploration expenditures for the quarters presented were mostly related to the investigation of new property opportunities. General and administrative expenses for the quarter ended June 30, 2019 was higher than the other quarters presented due to a share-based payment expense of \$49,033 that relates to fair value of stock options granted.

Results of Operations

Quarter ended June 30, 2020

The quarter ended June 30, 2020 had a net loss of \$27,131, compared to \$106,298 for the quarter ended June 30, 2019, a decrease of \$79,167. The comparative quarter's net loss was higher due in part to incurring \$29,689 in exploration expenditures whereas none were incurred in the current quarter. General and administrative expenses in the current quarter totaled \$27,131 compared to \$76,609 in the comparative quarter, a decrease of \$49,478. This decrease was primarily due to the current quarter recording a share-based expense of \$3,253 compared to \$49,033 for the comparative quarter. The share-based payments expense relates to the granting of stock options during the comparative periods. All other general and administrative costs in the current quarter, with the exception of shareholder communications, were also lower than those for the comparative quarter due in part to cost cutting efforts. Shareholder communication costs were higher in the current quarter due to the timing of costs associated with the Company's annual general meeting.

Six months ended June 30, 2020

The net loss for the six-month period ended June 30, 2020 was \$69,603 compared to \$176,818 for the six-month period ended June 30, 2019, a decrease of \$107,215. As with the quarterly comparison, there were no exploration expenditures during the current period whereas there was \$61,627 in the comparative period. Exploration expenditures for the comparative period consisted mostly of new property investigation costs.

General and administrative expenses for the current six-month period totalled \$69,603 compared to \$115,191 for the comparative six-month period, a decrease of \$45,588. As in the quarterly comparison, the current period included a share-based payments expense of \$3,253 compared to \$49,033 for the comparative period. Most other general and administrative costs were fairly similar for both the current and comparative periods except for an

increase of \$2,182 in shareholder communications and \$2,921 in travel expenses in the current period. Shareholder communication costs were higher for the same reason as in the quarterly comparison and travel costs were higher due to investigation of new business opportunities.

Liquidity and Capital Resources

The Company is in the exploration stage and therefore has no cash flow from operations. For as long as the Company owns the Rivier Property, the Company has a commitment to make annual advance royalty payments of \$10,000 to the former property owner commencing in April 2021.

As at June 30, 2020, current assets were \$173,842 of which \$169,962 was cash and \$2,626 was the fair value of equity investments. Current liabilities were \$32,814, resulting in working capital of \$141,028. During the period ended June 30, 2020, the Company completed a private placement financing for gross proceeds of \$500,000 of which a portion of the funds were used to settle existing liabilities and the remainder being used for general working capital purposes.

The Company has primarily funded its operations through the issuance of equity financing. The Company expects its current capital resources to be sufficient to cover its corporate operating costs but not potential future mineral property acquisitions or exploration expenditures through the next twelve months. As such, the Company will seek to raise additional capital and believes it will be able to do so, but recognizes the uncertainty attached thereto. Actual funding requirements may vary from those planned due to a number of factors, including the progress of property acquisition and exploration activity.

Related Party Transactions

See Note 11 of the condensed interim financial statements for the period ended June 30, 2020 for details of related party transactions which occurred in the normal course of business.

Other Data

Additional information related to the Company is available for viewing at www.sedar.com.

Share Position and Outstanding Share Purchase Warrants and Options

As at the date of this Interim MD&A, the Company had 25,261,308 common shares issued and outstanding and the following share purchase warrants and incentive stock options are currently outstanding:

<u>SHARE PURCHASE WARRANTS</u>		
No. of warrants	Exercise price	Expiry date
5,000,000	\$0.15	February 11, 2021
<u>STOCK OPTIONS</u>		
No. of options	Exercise price	Expiry date
141,000	\$0.75	July 19, 2022
460,000	\$0.10	May 2, 2029
25,000	\$0.14	May 27, 2030
626,000		

Accounting Policies and Basis of Presentation

The Company's significant accounting policies are presented in the audited financial statements for the year ended December 31, 2019.

Future Accounting Changes

The Company will be required to adopt the following standards and amendments issued by the IASB as described below.

IFRS 17 Insurance Contracts

IFRS 17 is a new standard that requires insurance liabilities to be measured at a current fulfillment value and provides a more uniform measurement and presentation approach for all insurance contracts. These requirements are designed to achieve the goal of a consistent, principle-based accounting for insurance contracts. IFRS 17 supersedes IFRS 4, *Insurance Contracts*, and related interpretations.

This standard will be effective for the Company's annual period beginning January 1, 2021. The Company has assessed that the impact of IFRS 17 on its financial statements would not be significant.

Risks and Uncertainties*Global Pandemic*

The Company faces risks related to health epidemics and other outbreaks of communicable diseases, which could significantly disrupt its operations and may materially and adversely affect its business and financial conditions. The Company's business could be adversely impacted by the effects of the COVID-19 coronavirus which was declared a global pandemic by the World Health Organization in March 2020. COVID-19 infections have been reported globally.

The extent to which COVID-19 may impact the Company's business, including its operations and the market for its securities, will depend on future developments which cannot be predicted, and include the duration, severity and scope of the outbreak and the actions taken to contain or treat the outbreak. The continued spread of COVID-19 globally could materially and adversely impact the Company's business, financial condition and results of operations including without limitation, employee health, workforce productivity, increased insurance premiums, limitations on travel, the availability of industry experts and personnel, restrictions to any drill programs and/or the timing to process drill and other metallurgical testing, and other factors that will depend on future developments beyond the Company's control.

The international response to the spread of COVID-19 has led to significant restrictions on travel, temporary business closures, quarantines, global stock market volatility and a general reduction in consumer activity. Such public health crises can result in operating and supply chain delays and disruptions, global stock market and financial market volatility, declining trade and market sentiment, reduced movement of people and labour shortages, and travel and shipping disruption and shutdowns, including as a result of government regulation and prevention measures, or a fear of any of the foregoing, all of which could affect commodity prices, interest rates, credit ratings, credit risk and inflation.

Mineral Property Exploration and Mining Risks

The business of mineral deposit exploration and extraction involves a high degree of risk. Few properties that are explored ultimately become producing mines. At present, none of the Company's properties has a known commercial ore deposit. The main operating risks include: securing adequate funding to maintain and advance exploration properties; ensuring ownership of and access to mineral properties by confirmation that option agreements, claims and leases are in good standing; and obtaining permits for drilling and other exploration activities.

Joint Venture Funding Risk

The Company's strategy includes seeking partners through joint ventures to fund exploration and project development. The main risk of this strategy is that funding partners may not be able to raise sufficient capital in order to satisfy exploration and other expenditure terms in a particular joint venture agreement. As a result, exploration and development of one or more of the Company's property interests may be delayed depending on whether the Company can find another partner or has enough capital resources to fund the exploration and development on its own.

Commodity Price Risk

The Company is exposed to commodity price risk. Declines in the market price of gold, base metals and other minerals may adversely affect the Company's ability to raise capital or attract joint venture partners in order to fund its ongoing operations. Commodity price declines could also reduce the amount the Company would receive on the disposition of one of its mineral properties to a third party.

Financing and Share Price Fluctuation Risks

The Company has limited financial resources, has no source of operating cash flow and has no assurance that additional funding will be available to it for further exploration and development of its projects. Further exploration and development of one or more of the Company's projects may be dependent upon the Company's ability to obtain financing through equity or debt financing or other means. Failure to obtain this financing could result in delay or indefinite postponement of further exploration and development of its projects which could result in the loss of one or more of its properties.

Securities markets have at times in the past experienced a high degree of price and volume volatility, and the market price of securities of many companies, particularly those considered to be exploration stage companies such as the Company, have experienced wide fluctuations in share prices which have not necessarily been related to their operating performance, underlying asset values or prospects. There can be no assurance that these kinds of share price fluctuations will not occur in the future, and if they do occur, how severe the impact may be on the Company's ability to raise additional funds through equity issues.

Political and Regulatory Risks

The Company is currently operating in Canada which has a stable political and regulatory environment. However, changing political aspects may affect the regulatory environment in which the Company operates.

Insured and Uninsured Risks

In the course of exploration, development and production of mineral properties, the Company is subject to a number of hazards and risks in general, including adverse environmental conditions, operational accidents, labor disputes, unusual or unexpected geological conditions, changes in the regulatory environment and natural phenomena such as inclement weather conditions, floods, and earthquakes. Such occurrences could result in damage to the Company's properties or facilities and equipment, personal injury or death, environmental damage to properties of the Company or others, delays, monetary losses and possible legal liability.

Although the Company may maintain insurance to protect against certain risks in such amounts as it considers reasonable, its insurance may not cover all the potential risks associated with its operations. The Company may also be unable to maintain insurance to cover these risks at economically feasible premiums or for other reasons. Should such liabilities arise, they could reduce or eliminate future profitability and result in increased costs, have a material adverse effect on the Company's results and a decline in the value of the securities of the Company.

Environmental and Social Risks

The activities of the Company are subject to environmental regulations issued and enforced by government agencies. Environmental legislation is evolving in a manner that will require stricter standards and enforcement and involve increased fines and penalties for non-compliance, more stringent environmental assessments of proposed projects, and a heightened degree of responsibility for companies and their officers, directors and employees. There can be no assurance that future changes in environmental regulation, if any, will not adversely affect the Company's

operations. Environmental hazards may exist on properties in which the Company holds interests which are unknown to the Company at present. Social risks are considered low in Canada, the principal country of operation of the Company, but a change in social expectations could add new layers of risk to the viability of exploration and development properties.

Competition

The Company will compete with many companies and individuals that have substantially greater financial and technical resources than the Company for the acquisition and development of its projects as well as for the recruitment and retention of qualified employees.
